

Naples Botanical Gardens and Historical Tin City

Tuesday, March 26, 2019

Come join LLI and experience the amazing visual wonder of the Gardens!

Our first stop will be at the historic Tin City in Naples to enjoy a delicious lunch at the Riverwalk Restaurant overlooking the Gordon River. After lunch it's time to visit Tin City which was built in the 1920's to accommodate the economic growth of Naples' fishing industry, including clam shelling, oyster processing, boat construction and maintenance. In the 1970's seven of Tin City's sturdy old buildings were renovated into a quaint shopping area of thirty unique boutiques offering a wide variety of gift items, clothing, wines, jewelry, and bakery goods.

After a short bus ride to Naples Botanical Gardens you will enjoy a 90-minute guided walking tour of a tropical garden paradise. The Garden consists of 95 acres of six cultivated gardens (Kathryn's Garden, Irma's Garden, Brazilian Garden, Caribbean Garden, Florida Garden and Asian Garden) with more than 300 species of exotic plant life. The Preserve has 90 acres of preservation land with seven ecosystems including mangroves, marshes and untouched forests and the home to hundreds of animal species, a profusion of native plants and over 150 bird species.

Please wear appropriate shoes, clothing, hats, sunscreen and bug spray. ADA accessible paths are throughout all buildings and cultivated gardens. Please use caution on the paths. Bring water containers – there are water fountains for refills. This is a nicotine free environment. Based on a first come basis, wheelchairs are available for free and scooters for \$12 a day.
